DUTIES:	<p>This position is located in the 135th Intelligence Squadron. The primary purpose of the position is to conduct research and analysis of adversarial countries and organizations, their methods of collection/interception of information against DoD security interests, with emphasis on adversarial telecommunications and computer infrastructure. Provides estimates of adversarial course of action, capability, and intentions to conduct Cyber Operations. Additionally, the purpose of this position is to perform complex intelligence analysis and to update squadron personnel concerning opposing force threats and capabilities specific to mission requirements and assignments.</p> <p>(1) Serves as the unit's expert intelligence analyst for the commander and staff. Classifies research and performs analysis of intelligence information regarding hostile military, terrorist, or other threats. Coordinates requests for information with Air Force Intelligence, Surveillance and Reconnaissance Agency/ Air Force Information Operations Center (AFISRA/AFIOC). Collects, analyzes, evaluates and interprets intelligence data to project and recommend realistic threat scenarios, i.e., potential areas of vulnerabilities. Ensures intelligence products are adequately protected and have proper classification markings before, during, and after an assessment or other event.</p> <p>(2) Analyzes and reports intelligence information. Performs detailed analysis on target network communications for additional exploitation. Recovers, correlates, and fuses technical, geographical, and operational intelligence information. Recognizes and exploits information. Authors' time-sensitive intelligence reports in accordance with established guidelines to support decisions makers. Produces, analyzes, studies, researches, fuses, and correlates intelligence for strategic, operational and tactical customers.</p> <p>(3) Utilizes intelligence techniques to develop projects and activities within a specifically defined functional area of responsibility. Prepares reports that include all aspects related to Information Operations/Information Warfare or threat analysis studies.</p> <p>(4) Responsible for the evaluation and interpretation of findings. Participates in committees and meetings as a representative of the squadron within assigned area of responsibility.</p> <p>(5) Researches current computer and internet intrusion techniques of potential adversary threat countries or non-state actors, and other threat practices.</p>

135 IS DSG Fusion Analyst Vacancy Announcement

	<p>(6) Uses all-source intelligence information to produce and present topical high-interest technical and operational intelligence briefings to all levels of command.</p> <p>(7) Interprets DoD, National Security Agency, Air Force and other applicable security policies, standards and guidelines to enhance mission effectiveness.</p> <p>(8) Performs other duties as assigned.</p>
